### PROFESSIONAL SUMMARY

Passionate MERN Stack Developer with hands-on experience in React.js, Node.js, Express.js, MongoDB, and JavaScript (ES6+). Skilled in building scalable web applications, integrating RESTful APIs, and developing responsive user interfaces. Strong analytical and problem-solving skills with a passion for building modern SaaS applications.

### TECHNICAL SKILLS

|           |                                                        |
|-----------|--------------------------------------------------------|
| Languages | C, Java                                                |
| Frontend  | React.js, HTML5, CSS3, Tailwind CSS, JavaScript (ES6+) |
| Backend   | Node.js, Express.js                                    |
| Database  | MongoDB                                                |
| APIs      | RESTful APIs                                           |
| Tools     | Git, GitHub                                            |
| AI Tools  | Claude Code, Stitch                                    |

### PROJECTS

#### LandLink — Land Plot Management & Broker Network Micro-SaaS Platform

- Built a full-stack micro-SaaS platform for land plot management with real-time collaboration and role-based access control.
- Developed an OCR pipeline using OpenCV and PaddleOCR for structured plot data extraction.
- Implemented a real-time plot booking, approval, and status tracking system using Socket.io.
- Designed a secure backend using JWT authentication and modular REST APIs.

**Tech Stack:** React.js, Node.js, Express.js, MongoDB, Socket.io, OpenCV, PaddleOCR, JWT, Cloudinary

#### LinkSphere — Link Sharing & Analytics Micro-SaaS Platform

- Built a link-in-bio platform with real-time analytics to capture visitor location, device, browser, and OS.
- Developed a click analytics pipeline using Node.js and MongoDB for real-time audience insights.
- Implemented secure authentication using JWT, Google OAuth, and role-based access control.

**Tech Stack:** JavaScript, React.js, Node.js, Express.js, MongoDB, JWT, REST APIs

### INTERNSHIPS

#### Evalbench — Web Development & Data Privacy Intern

Dec 2025 – Jan 2026

- Built full-stack web application modules with REST API integration and backend connectivity for seamless client-server communication.
- Implemented data privacy and security practices ensuring safe handling of user and application data.
- Contributed to backend development and improved application reliability through clean coding.

#### Evalbench — Web Development Intern

June 2025 – July 2025

- Developed a Spotify-inspired frontend application using React.js, JavaScript, and Tailwind CSS to understand UI development and component-based architecture.
- Worked on company-assigned frontend modules by converting UI designs into responsive and reusable components.
- Integrated REST APIs into frontend applications and improved performance through debugging and optimization techniques.

### EDUCATION

#### B.Tech — Information Technology

Sept 2023 – 2027

Francis Xavier Engineering College, Tirunelveli

CGPA: 8.3

#### HSC — Class XII

2022 – 2023

Mother Theresa Matric Hr. Sec. School, Kayathar

77.8%

### ACHIEVEMENTS

- First Prize** — Outstanding Problem Solving Skills, ITCAINS Association Inauguration, Department of Information Technology.
